Building Bridges

Bringing together people wanting to escape poverty with people who can help!

OUR MISSION
"Empower individuals in poverty to transition to self-sufficiency with community support."

"Getting Ahead in a Just-Gettin'-By World" is a 15-16 session workshop series providing tools and support to individuals motivated to get out of poverty. Working in a group-learning environment, you will investigate your experience of poverty, as well as the impact within your community, providing critical information to take action to end poverty.

You will also learn that money is only one of 11 resources used to define poverty. Learn how these resources affect your life and the lives of your family. By examining the resources you have versus the resources you need, you will be able to formulate a personal plan, based on goals, to get out of poverty.
